COMPANY OVERVIEW

Total Solutions, Inc. (TSI) is a leading consulting and professional services firm providing a broad range of services and solutions in program management; administrative, communication, and business support; engineering; research; technology; strategy, and operations. Since our founding in 1995, TSI has supported over 500 federal and state contracts for multiple government in 25 states and in 45 countries. To meet the demands of today's fast-changing world as the government's needs evolved over time, we have invested in numerous technical and organizational capabilities. Today, we serve federal civilian, defense, and intelligence agencies with a wide range of services. TSI is a small business and a subsidiary of Bristol Bay Native Corporation (BBNC), an Alaska Native Corporation (ANC).

SAMPLE OF CURRENT CONTRACTS

NASA: Operations and Programmatic Support Services (OPSS)

TSI provides administrative, professional, and communications support services across a wide range of activities at NASA Headquarters while managing a team of experts on high visibility programs. We manage four subcontractors including one large significant subcontractor.

DHS Countering Weapons of Mass Destruction Office: Technical Assistance Team Support (TATS)

TSI procures, stores, transport/ships, and handles training materials and provides operation assistance to the FBI Hazardous Devices School at Redstone Arsenal. This program enhances the Counter Weapons of Mass Destruction (CWMD) capabilities of Federal, State, local, tribal, and territorial partners against the use of chemical, biological, radiological and nuclear material as weapons against the U.S.

USACCoE: Electronic Warfare (17E) Training and Range Support Services

TSI provides training development; classroom, field, and range training; and range operation and support services for the USACCoE at Fort Gordon, GA. This project focuses on providing instruction of the 17E Advanced Individual Training, and Electronic Warfare range operations, and shall also supports EW course content update and revision for the Cyber

MSIC: Logistics, Warehouse, Access Control, and Escort Services

TSI provides logistics support, financial support services, security specialists, intelligence support, mail screening security services, personnel security, and Special Access Program Facility (SAPF) or Sensitive Compartmented Information Facility (SCIF) security administration to MSIC.

CDC: Information Management Services (CIMS)

TSI provides multiple services under this contract, including development and maintenance of databases, program management support, business process improvement analysis, coordinating communications, supporting change management, providing technical consultation, and development support to CDC program offices.

Army Research Institute: Role Transition from Team Member to Noncommissioned Officer (NCO)

TSI assembled a team of scientists, innovative thinkers, and former military personnel to examine what the transition process from Soldier to NCO is like, identify challenges or barriers to a successful transition, and recommend solutions to address these challenges.

WHY TSI?

Our Dedication to Customer Loyalty and Satisfaction

Customer satisfaction is our top priority.

Leadership and Administration
