COMPANY OVERVIEW

Since our founding in 1995, Total Solutions, Inc. (TSI) has supported over 500 federal and state contracts for multiple agencies in 25 states and in 45 countries. To meet the demands of today's fast-changing world as the government's needs evolved over time, we have invested in numerous technical and organizational capabilities. Today, we serve federal civilian, defense, and intelligence agencies with a wide range of services. Our frequently exceptional CPARS prove our dedication to customer satisfaction:

[TSI] is detail oriented, customer focused, and results driven.

[TSI] provides quality work at a very reasonable price. The costs are very stable and consistent between offerings, which is critical to our budget planning.

[TSI] does an outstanding job of identifying and selecting highly skilled staff to perform tasks on the contract.

SAMPLES OF CONTRACT EXPERIENCE

National Aeronautics and Space Administration (NASA): Operations and Programmatic Support Services (OPSS)

TSI provides administrative, professional, and communications support services across a wide range of activities at NASA Headquarters while managing a team of experts on high visibility programs. We manage four subcontractors including one large significant subcontractor.

Federal Emergency Management Agency (FEMA): National Flood Insurance Program Financial Management Services

TSI provides all accounting and financial control functions for the NFIP program. TSI provides support for records management, accounting, financial management, reporting, and audits. We also provide actuarial support to review and analyze FEMA policy and rate setting responsibilities.

National Oceanic and Atmospheric Administration (NOAA): Surface Observations Program Support Services

TSI provides technical and administrative support for the National Weather Service (NWS) with maintenance, engineering system performance, and management support for the Automated Surface Observing System program (ASOS). We also support the technical requirements for the Cooperative Observer Program (COOP) and for all related surface observing systems' equipment and hydrology.

Department of Homeland Security (DHS) Countering Weapons of Mass Destruction Office: Technical Assistance Team Support (TATS)

TSI procured, stored, transported/shipped, and handled training materials and provided operation assistance to the FBI Hazardous Devices School at Redstone Arsenal. This program enhances the Counter Weapons of Mass Destruction (CWMD) capabilities of Federal, State, local, tribal, and territorial partners against the use of chemical, biological, radiological, and nuclear material as weapons against the U.S.

Missile and Space Intelligence Center (MSIC): Logistics, Warehouse, Access Control, and Escort Services

TSI provided logistics support, financial support services, security specialists, intelligence support, mail screening security services, personnel security, and Special Access Program Facility (SAPF) or Sensitive Compartmented Information Facility (SCIF) security administration to MSIC.

US Army: Electronic Warfare Training and Range Support Services

TSI provided training development; classroom, field, and range training; and range operation and support services for the US Army Cyber Center of Excellence at Fort Gordon, GA. This project focused on providing instruction of the 17E Advanced Individual Training, and Electronic Warfare range operations, and also supported EW course content updates and revisions for the Cyber School.

"We would not be able to accomplish half of what we do were it not for the outstanding people that [TSI] has provided. [TSI] has done an amazing job understanding our functions, coordinating on employee needs, and on communicating. We truly view [TSI] as an amazing partner that allows us to accomplish significant groundbreaking objectives for the Agency. We cannot thank them enough for all their efforts."
